

Project Estimation & Planning Product Feature Comparison		
Task	Microsoft Project	SLIM-Estimate
Define Software Development Life Cycle & Task Hierarchy	X	X
Display GANTT Chart & Time Line	X	X
Assign Resources to Individual Tasks	X	X
Input Resources as Individuals	X	
Input Project Team Productivity		X
Compute Effort Required to Complete Work by WBS		X
Display Effort/Work by WBS	X	X
Compute Cost by WBS	X	X
Model Task Dependencies	X	X
Compute Duration by WBS	X	X
Re-estimate Project Based Upon WBS Task Duration/Effort Changes	X	
Estimate/Input Delivered Software Size		X
Dynamically Adjust Effort and Duration with Scope/Size Changes		X
Log Alternative Plans for Comparative Analysis		X
Compute Product Defect Discovery Rates		X
Predict Duration by Quality Requirement		X
Adjust Duration and Predicted Defects by Resource Availability		X
Explicitly Compute Project Risk Associated with Estimate Uncertainty		X
Evaluate/Validate Estimate/Plan Against History		X
Adjust Effort/Size/Duration/Quality to meet Project Objectives		X
